WORK EXPERIENCE

OBANANA CORP. *2022 - PRESENT*

- Collaborated with clients throughout the development process, providing regular updates and ensuring alignment with project objectives.
- Collaborated with team members to streamline development processes by sharing insights and solutions that enhanced efficiency and code quality, and was entrusted with training interns, guiding them through development processes and fostering their technical and developement skills.

Web & Mobile App Development

- Designed and developed user interfaces for websites and mobile apps using HTML, CSS, PHP, JavaScript, TypeScript, TailwindCSS, and frameworks such as React, Laravel, Next.js, React Native (Expo).
- Tested and debugged code to ensure functionality and performance across various platforms.

Backend Development

- Designed and implemented back-end architecture, including schemas, models, resolvers, and middleware, using PHP, Node.js, and Express.
- Using NoSQL (MongoDB), PostgreSQL, and MySQL for efficient data management and storage.
- Utilized Docker for containerized development.

Odoo ERP Development

- Developed and deployed custom modules extending default Odoo applications (e.g., Sales, Inventory, Accounting, Website, and Ecommerce) with additional business logic and automation.
- Built a fully customized modules (e.g., Quality Management System (QMS) module, including workflows for inspections, checklists, and approval processes.)
- Migrated and upgraded custom modules from Odoo 16 to 18, ensuring compatibility with new frameworks, and enhanced the user interface for improved usability and performance.

OJT / Intern
